

Vegetable Varieties for Comal County

Comal Master Gardener Association
Texas AgriLife Extension Service

Improving Lives. Improving Texas.

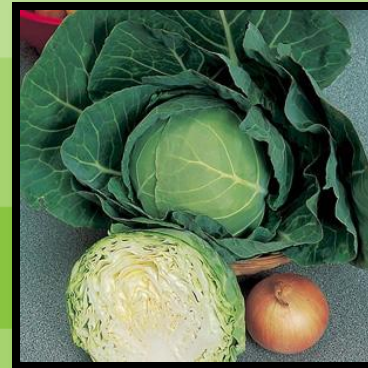

Warm Season Vegetables

Varieties of Vegetables that **ARE NOT** frost-tolerant must be planted late in spring or early in fall. (The growing season will be short in fall).

Cool Season Vegetables

Varieties of Vegetables that **ARE** frost-tolerant . Some vegetables taste better when grown in cool weather.

Avoiding Disease & Insects

Left: *Squash Vine Borer* and *Squash Vine Borer Larva*; Center: *Aphids* (plant lice) on *Fennel*;
Right: *Powdery mildew*, *Stink Bug*, and *Nematodes*.

Harvesting at the Right Time
