Education
Station

Wednesday, March 4th at 1 PM at the Brazoria Environmental Education Station 585 E. Hospital Dr, Angleton, TX 77515-4130

An Enabling Garden enables anyone who wants to garden to be able to do so regardless of their ability or disability. An enabling garden integrates different bed designs with modified tools and other features that enable any person to be able to garden. This project is a unique collaboration between the Brazoria County Master Gardeners Association, the Texas A&M Holistic Gardens and the Lone Star Chapter of the National Multiple Sclerosis Society. Funding for the project was made possible through the Lone Star Chapter's MS Entrepreneurs Program presented by Kanaly Trust.

Brazoria County Master Gardeners

Enabling Garden in Angleton: Benefits to the Community

- Community resource for a garden where people of all abilities and disabilities may work side by side
- Plans will be posted on the website (www.enablinggardens.com) so people can create the features of the garden in their own home
- Volunteer opportunities for individuals and groups including constructing the garden beds, website design, drafting of the bed plans for posting on the internet
- Sponsor the construction of a garden bed and become one of the founding members of the Adopt a Bed Program
- Learn about our other community educational resources provided at BEES
 - Rainwater Harvesting
 - Earthkind Rose trial
 - Weather Station
 - Organic Gardening
 - Composting
 - Vegetable gardens
 - Tropical gardens

To RSVP (not necessary but appreciated) or for more information, please contact: Jennifer Northrop cell: (281) 433-1588; jnorthrop@nmsslonestar.org
