114 West Main St, Brady

325-597-1295

e-mail: centexmga@gmail.com

Download application: txmg.org/centraltexas

The Master Gardener organization is a volunteer group dedicated to providing horticulture education and advice to the community.

To become a certified Master Gardener, the training course must be completed, plus 50 volunteer hours during the following year.

Master Gardener training is a great way to learn landscaping and gardening techniques for Central Texas, and to network with other gardeners.

Whether an expert or beginner, anyone is welcome to join!

** The class is offered for \$200 for anyone who cannot commit to the volunteer service and does not want to become a Master Gardener*
