

Teacher Workshop

August 4-5, 2021

Virtual
15 CPE credits

What do cows have to do with birds?
How can both help your students learn
about:

ecosystems * habitat * biodiversity
sustainability * adaptations?

Join us to find out!

Connected by Birds Teacher Workshop
is a **FREE**, grant-funded program for 7th - 12th-grade
teachers to connect their students with healthy agriculture
and healthy habitats through the experience of birding.

United States Department of Agriculture
National Institute of Food and Agriculture

You will learn about:

bird identification - sustainable agriculture - habitat management
and how to tie these concepts together through **TEKS-aligned** lessons and activities.

Workshop details:

- Online August 4-5 via Zoom
- 15 CPE credits
- All participants who complete the course will earn a bird guide, plant guide, and binoculars!

Apply by July 30 at:
wildlife.tamu.edu/teachbirds
