Victoria Educational Gardens  
located at 333 Bachelor Drive  
at the Victoria Regional Airport, Victoria, TX

Victoria County Master Gardener Association offers garden tours for students of all ages from Pre-K to High School. Adult groups are welcome also.

Our tour guides provide age appropriate activities to be engaged in throughout the garden tour. Some of the activities are planting a bean seed, coloring a dragonfly necklace, watching butterflies and caterpillars in our enclosed butterfly haven, and touring our children's garden. No matter what activity you participate in we guarantee fun and learning!
